

NOTOX

SILICON CARBIDE FILTERS

Pyroban Envirosafe has received approval for its Acti-Trap Diesel Particulate Filter based on Notox XD-90 filter substrate.

Envirosafe has been registered in the NRMM (Non Road Mobile Machinery Particulate Matter (PM) Abatement Register) with its Acti-Trap Diesel Particulate Filter by Energy Savings Trust.

According to the Greater London Authorities Best Practise Guide, machinery with a power rating greater than 37KW must be fitted with an approved after-treatment system from the NRMM after-treatment Register. The register identifies those after-treatment systems that have been approved under the requirements of the Best Practice Guide.

Envirosafe is now listed as an approved equipment supplier for its Acti-Trap Diesel Particulate Filter.

For further details, contact Envirosafe at info@pyroban.com or contact Notox at info@notox.com.
